# Chairperson Q&A Overview

The screenshot displays the 'Chairperson Q&A Overview' interface. At the top left, there is a back arrow icon and the text 'Back to Session Overview'. The main header includes three tabs: 'Twitter Posts / Hashtags', 'Q&A 25', and 'Voting 1'. Below the header, the session title 'This is a Demo Session' is shown. A 'Sort by' dropdown menu is set to 'most recent', with 'most likes' as an alternative. A toggle switch for 'Show my bookmarked comments' is currently turned off. The main content area lists five comments from users: Gerda Luschin, Robby Peter Hofmann, Hui Wang, Mahmoud Abughalwa, and Firas Arshid. Each comment includes a 'Bookmark this comment for the discussion' star icon, a timestamp of '177 days ago', and a thumbs-up icon. To the right of each comment are control buttons: 'Show to Audience' (green) for the first three comments and 'Hide from Audience' (red) for the last two. A help icon (?) is located in the top right corner of the interface.
