

Top 10 Abstracts

Abstract Number	Title	Presenter First Name	Presenter Last Name	Presenter Country
812	Phase 2b ORIGIN Study Open Label Extension with Atacicept in Patients with IgA Nephropathy and Persistent Proteinuria: Week 72 Interim Analysis	Richard	Lafayette	United States of America
2837	Novel therapeutic for crescentic glomerulonephritis through targeting CLDN1 in parietal epithelial cells	Jean-Daniel	DELBET	France
615	Generalisability of cardiovascular RCTs to patients with chronic kidney disease in clinical practice: a comparison between RCTs and real-world data	Julia MT	Colombijn	Netherlands
1750	Burden and excess risk of adverse outcomes in patients with type 1 diabetes utilizing KDIGO classification: A national cohort study	Kianoush	Makvandi	Sweden
992	Protocol based on PLA2R1 epitope recognition is superior to standard protocol in achieving remission in PLA2R1-associated membranous nephropathy	Barbara	Seitz-Polski	France
2908	Renal Progenitor Cells an Early Non-Invasive Biomarker of Silent Kidney Injury in Fabry Disease	Jessica	Ugalde-Altamirano	Spain
1484	Development of a relapse risk score in patients with ANCA-associated vasculitis treated with cyclophosphamide induction	Gianmarco	Lugli	Italy
3070	Machine learning glomerulonephritis diagnosis on single glomeruli	Jan	Becker	Germany
1347	Development and Validation of a Nomogram for Predicting Complete Kidney Function Recovery after Drug-Induced Acute Interstitial Nephritis	Fernando	Caravaca-Fontán	Spain
1809	Twice Against Thrice-weekly Hemodialysis: the TATH trial	Mabel	Aoun	France

Top 8 Abstracts

Abstract Number	Title	Presenter First Name	Presenter Last Name	Presenter Country
2908	Renal Progenitor Cells an Early Non-Invasive Biomarker of Silent Kidney Injury in Fabry Disease	Jessica	Ugalde-Altamirano	Spain
2704	Effects of high dietary salt on immunome and microbiome composition – results from a randomized clinical trial	Hendrik	Bartolomaeus	Germany
2461	KIR-HLA-I genetic mismatch and the development of antibody-mediated rejection and microvascular inflammation after renal transplantation	Judith	Federico-Vega	Spain
2576	Effect of dialysis versus conservative care on all-cause mortality in older patients with advanced CKD: nationwide Swedish cohort study	Xuerui	Zhang	Netherlands
615	Generalisability of cardiovascular RCTs to patients with chronic kidney disease in clinical practice: a comparison between RCTs and real-world data	Julia MT	Colombijn	Netherlands
992	Protocol based on PLA2R1 epitope recognition is superior to standard protocol in achieving remission in PLA2R1-associated membranous nephropathy	Barbara	Seitz-Polski	France
976	Empagliflozin limits AKI incidence and severity following cardiac surgery: an open-label phase IV randomized pilot study.	Lars	Snel	Netherlands
2370	Creatinine, cystatin C, muscle mass, and mortality: findings from a primary and replication population-based cohort	Dion	Groothof	Netherlands

ASQ

Abstract Number	Title	Presenter First Name	Presenter Last Name	Presenter Country
635	Effect of multi-biomarker panels based on urinary N-terminal osteopontin on prediction of diabetic kidney disease in patients with diabetes mellitus	Ling	Sun	P.R. China
185	The role of angiotensin 2 type 1 receptor and type 2 receptor after postischemic acute kidney injury in spontaneously hypertensive rats	Milan	Ivanov	Serbia
1994	Analysis of dynamics of parameters of safety and effectiveness of rivaroxaban in patients with stage IV chronic kidney disease and atrial fibrillation	Ranokhon	Igamberdieva	Uzbekistan
1339	The characteristic of memory B-cell subsets in patients with IgA-nephropathy	Darya	Nizheharodava	Belarus
1888	ASSOCIATION BETWEEN INTRAPATIENT VARIABILITY OF SERUM TACROLIMUS LEVELS WITH THE DEVELOPMENT OF DIABETES IN POST-KIDNEY TRANSPLANTATION PATIENTS	Lucino	Bahena Carrera	Mexico
2786	EFFECT OF INTRADIALYTIC VIRTUAL REALITY EXERCISE PROGRAM ON LOWER LIMB MUSCLE STRENGTH IN PATIENTS ON HEMODIALYSIS	Maycon Moura	Reboredo	Brazil

Abstract Number	Title	Presenter First Name	Presenter Last Name	Presenter Country
1484	Development of a relapse risk score in patients with ANCA-associated vasculitis treated with cyclophosphamide induction	Gianmarco	Luqli	Italy
162	Single-Nucleus RNA-Seq of biopsy-confirmed IgA nephropathy reveals cell-specific transcriptomic alteration	Sehaon	Park	Korea, Rep. of South
821	Kibra mediates the activation of hippo by classic signal pathway related to NPHP1 defect	Liangzhong	Sun	P.R. China
2585	Human kidneys house innate-like B cells that transcriptomically mirror murine B-1 cells and change with age	Ondrej	Suchanek	United Kingdom
2390	Does incompatible kidney transplantation provide a reliable alternative? An updated Meta-analysis	Abdelrahman	Abdelshafi	Egypt
1154	Type I interferon pathway is upregulated in microscopic polyangiitis (vs granulomatosis with polyangiitis)	AUGUSTO	Jean Francois	France
2526	Sex differences in chronic kidney disease-related complications and mortality across levels of glomerular filtration rate	gianmarco	lombardi	Italy
1914	Comprehensive Single-Cell Sequencing and Lipidomics Identify Diverse Injury States and Cholesterol Dynamics of the PTs in AKI-to-CKD Transition	Yilin	Zhang	P.R. China
801	Impact of Delayed Graft Function on Cardiovascular Events in Kidney Transplant Recipients	Thomas	Beaudrey	France
431	Ionized and total magnesium levels in patients with chronic kidney disease: associated factors and outcomes	Maxime	Pluquet	France
1060	PREVALENCE AND ADVERSE OUTCOMES OF HYPOKALEMIA AND THE ROLE OF POTASSIUM SUPPLEMENTATION IN PATIENTS RECEIVING PERITONEAL DIALYSIS	Changyuan	Yang	Netherlands
369	Anti-nephrin antibodies identify patients with steroid-resistant nephrotic syndrome responsive to immunosuppressants	Valentina	Ragianti	Italy
457	Sparsentan has direct effects on the glomerular capillary wall to attenuate increased permeability after exposure to nephrotic syndrome plasma	Michael	Crompton	United Kingdom
2045	Epigenetic data can predict initial treatment response in nephrotic syndrome	Samantha	Hayward	United Kingdom
2978	Formative usability test of a novel device for peritoneal dialysis (WEAKID)	Joost	de Vries	Netherlands
2553	Circulating anti-slit diaphragm NEPHRIN and KIRREL-2 antibodies associate with nephrotic syndrome	Andrea	Angeletti	Italy
1761	Whole-genome sequencing reveals contribution of rare and common variation to structural kidney and urinary tract malformations	Melanie	Chan	United Kingdom
898	Acceleration in kidney function decline after COVID-19 infection: the Stockholm CREATinine Measurements (SCREAM) project	Vivaasan	Mahalingasivam	United Kingdom
2692	Mayo Clinic Chronicity Score: a helpful tool to establish the prognosis of patients with chronic kidney disease	Beatriz	Sanchez Alamo	Spain
855	Cyclophilin D in cholesterol crystal-induced acute kidney injury	Cong	Li	Germany
921	Interferon regulatory factor 4 (IRF4)-specific deletion on dendritic cells protects against kidney inflammation and injury in IRI-induced AKI/AKD	Hao	Long	Germany
569	Proenkephalin A 119-159 (penKid) for the Early Identification and Risk Stratification of Delayed Graft Function following Kidney Transplantation	Louise	Benning	Germany
2379	Acute Kidney Injury as a Key Predictor of Major Adverse Cardiovascular Events in Chronic Kidney Disease Patients	Nans	FLORENS	France
3043	Epidemiology of infective endocarditis in long term hemodialysis patients in France, from 2014 to 2019	Edouard	Clemmer	France
841	Healthcare workload amongst people with chronic kidney disease: what impact do mental disorders have?	Michael	Sullivan	United Kingdom
559	Validation of the Kidney Failure Risk Equation (KFRE) in individuals with chronic kidney disease and multimorbidity	Heather	Walker	United Kingdom
2834	Analysis of cyst hetero- and homogeneity to unravel common pathways in autosomal dominant polycystic kidney disease	Jean-Paul	Decuyperre	Belgium
2449	Prevalence and Determinants of Chronic Kidney Disease Among Older Community-dwelling Adults in Ireland	Meera	Tandan	Ireland
2305	MICE WITH A PAX2 MISSENSE VARIANT ARE SUSCEPTIBLE TO EXPERIMENTAL FOCAL SEGMENTAL GLOMERULOSCLEROSIS (FSGS) AND DISPLAY IMPAIRED GLOMERULAR REPAIR	Joanna	Cunanan	Canada
1399	Hemodiafiltration or haemodialysis for kidney failure: updated systematic review and individual participant data meta-analysis	Robin WM	Vernooij	Netherlands
2866	The CompAct-HD trial reports a persistent inflammatory profile in patients undergoing haemodialysis, acutely exacerbated with each treatment.	Duha	Ilyas	United Kingdom
2923	Intracardiac Vascular Access as a Last Resort for Hemodialysis in Patients with Exhausted Traditional Vascular Access: A case report	Carlos	Narváez Mejía	Spain
1936	Investigating genetic and environmental modifiers of autosomal dominant polycystic kidney disease through a distinct PKD2-founder variant (p.Arg803*)	Carolin	Brigl	Germany
2715	Towards Precise Prediction of Prognosis in ADPKD: a Comprehensive Biomarker Analysis	Thomas	Bais	Netherlands
2396	The potential of human-derived macrophages to study Autosomal Dominant Polycystic Kidney Disease (ADPKD)	Pieter	Schellekens	Belgium
1776	Distinct changes in gut microbiota of patients with kidney graft rejection	Vanessa	Visconti	Germany
280	Effectiveness and safety of direct oral anticoagulants vs VKA in patients on chronic dialysis: A target trial emulation using nationwide registry data	Solene M	Loville	France
2613	Clinical spectrum and prognosis of the atypical polycystic kidney disease caused by monoallelic loss-of-function IFT140 variants	Nikola	Zagorec	Croatia
2906	Kidney immune cells and endothelial cells can be modulated by low-salt and high-salt diets	Minyoung	Jang	Korea, Rep. of South
2234	A new formula for total body water in peritoneal dialysis patients	Ana Rita	Ramos	Portugal
956	Exome Sequencing in Adults with Secondary Thrombotic Microangiopathy with Kidney Involvement	Yannis	Lombardi	France
1521	EZH2 promotes cyst growth in autosomal dominant polycystic kidney disease	Cheng	Xue	P.R. China
1980	Post Peritonitis Episodes are Linked to Decreased Peritoneal Immune Cell Function and Associated with Chronic Increased Peritoneal Inflammation	Rebecca	Herzog	Austria
1713	Blood Pressure Goals in Kidney Transplant Recipients: An Analysis of the Collaborative Transplant Study	Claudius	Speer	Germany
2031	Exploring the Utility of Serum Proteomics for Outcome prediction of Autosomal Polycystic Kidney Disease (ADPKD)	Hande Özge	Aydoğan Balaban	Germany
2219	Glycemic control and adverse outcomes in patients with diabetes and CKD stage 4-5: a nationwide cohort study	Aurora	Caldinelli	Sweden
2695	A Polycystin-1-Bicaudal C1 complex regulates focal adhesion function through Integrin Beta-1, F-actin organisation and local translation in HKE cells	Manoj	Valluru	United Kingdom
1216	Comparable outcomes for old, older and very old deceased donors in old kidney transplant recipients	Erzi	Tegezss	Netherlands
1526	Effects of dietary intervention on diabetic nephropathy: an umbrella review of systematic review and meta-analysis of randomized controlled trials	linli	Cai	P.R. China
83	Cardiovascular Outcomes in Home Hemodialysis and Peritoneal Dialysis Patients	Silvi	Shah	United States of America
2891	Comparing health-related quality of life and symptom burden in patients undergoing twice-weekly versus thrice-weekly haemodialysis	Thomas Sebastiaan	van Lieshout	Netherlands
1472	Prevalence of Mendelian and non-Mendelian forms of genetic disease in a Swiss cohort of adult kidney stone formers	Manuel	Anderegg	Switzerland
2200	Kidney stem/progenitor cells can be isolated from the urine of neonates independently of their gestational age at birth	Sara	Akalay	Belgium
787	Kidney Genetics - a reproducible and curated database of kidney-disease associated genes	Constantin Aaron	Wolff	Germany
1905	Sex differences in primary distal renal tubular acidosis: a single-centre retrospective study	Viola	D'Ambrosio	Italy
2928	Fabry disease may imbalance integrin $\alpha 3$ related to endothelial dysfunction	Carolina	Amaral Bueno Azevedo	Brazil
1103	Delayed initiation or reduced initial dose of calcineurin-inhibitors for kidney transplant recipients: a systematic review and meta-analysis	Lola	Oliveras	Spain
1683	Gut Permeability, Circulating Bacterial Fragments, and Left Ventricular Strain in Peritoneal Dialysis	Chuanlei	Li	Hong Kong, P.R. China
2784	Deep learning algorithm predicts individual ultrafiltration trajectories for patients on automated peritoneal dialysis 12 weeks ahead	Fabian	Eibensteiner	Austria
2824	Use of proton pump inhibitors is not associated with post-dialysis fatigue and time of recovery after dialysis in patients on chronic hemodialysis	Ilaria	Mariani	Italy
2500	Renal perfusion and SGLT2	Steffen Flindt	Nielsen	Denmark
1778	Effects of comorbidities, social deprivation and sex on the excess mortality of French ESKD patients on dialysis.	Juste	Goungounga	France
1704	GLP-1RA versus DPP-4 inhibitors and rates of hyperkalemia and discontinuation of renin-angiotensin system (RAS) blockade in Swedish routine care	Tao	Huang	P.R. China
2239	Identification of non-HLA antibodies associated with the development of antibody-mediated damage after kidney transplantation	Eulalia	Sola-Ponta	Spain
632	Association between blood flow measured within 30 days from AV access creation and the risk of thrombosis	Lozenza	Magañoli	Italy
2292	INCREMENTAL PERITONEAL DIALYSIS: AN INDIVIDUALIZED THERAPY WITH BETTER CLINICAL OUTCOMES AND REDUCED ENVIRONMENTAL AND ECONOMIC IMPACT	Diogo	Domingos	Portugal
2315	Impact of iron and erythropoiesis-stimulating agent dose on mortality of hemodialysis patients with cancer.	Arthur	MICHON-COLIN	France
1450	Polycystic risk score of native IgA Nephropathy predicts risk of post-transplant disease recurrence	Francesca	Zanoni	Italy
1277	Comparing Advanced Glication End products removal in Super High-flux Hemodialysis versus High-volume Hemodiafiltration: A randomized, crossover study	Ployroee	Thanapirax	Thailand
1645	The role of donor Cystatin-C in posttransplant outcomes in kidney transplantation	Ioannis	Michalakis	Greece
1680	Cardiovascular disease in kidney transplant recipients with post-transplant diabetes mellitus - retrospective analysis from a randomized trial	Amelie	Kurnikowski	Austria
2238	In kidney transplant recipients, response to vaccination with Toxigenon is associated with T-cell activation, but not senescence or exhaustion	STAMATIA	STAI	Greece
2462	IMPACT OF TACROLIMUS PEAK CONCENTRATION ON KIDNEY GRAFT OUTCOMES	Quentin	MONCHAL	France
2980	The Natural history of Urinary Tract Infections in Kidney Transplant recipients	Ala Eldin	Elhoweris	United Kingdom
237	Carbapenemase producing enterobacteriaceae rectal colonization in dialysis patients: a large monocentric retrospective analysis	Matteo	Righini	Italy
153	The risk of post-transplant recurrent Immunoglobulin A nephropathy: The association with post-transplant steroid use	Mette	Throne Øhrstrøm	Denmark
570	A study of QTc time trends and factors affecting QTc changes during dialysis	YASUYUKI	MIYURA	Japan
1658	Association of blood dd-cfDNA levels with Bnff scores and histopathological lesions in kidney allograft biopsies: results from an observational trial	Aylin	Akfova	Germany
2205	Varying practice patterns in prevention, screening and treatment of diabetes early after kidney transplantation: a European survey	Yassine	Laghib	Belgium
2741	The interplay between donor & recipient factors, outcomes, and transplant artery flow volume as measured by phase-contrast magnetic resonance imaging	Paul	Martin	United Kingdom
