

	GOLD (PLENARY)	AUDITORIUM	SPACE 1 & 2	SPACE 3 & 4	BROWN 3	BROWN 1 & 2	AMBER 1 & 2	AMBER 3 & 4	AMBER 5	AMBER 6	FOCUSSED ORALS HALL	AMBER 7
08.00	Congress Opening											
08.45 12.20		CME 1 - Primary & Secondary GN, vasculitis and autoimmune diseases	CME 2 - Hypertension, diabetes, cardiovascular diseases in CKD	CME 3 - CKD and bone mineral disorders in CKD	CME 5 - Kidney transplantation	Hands - on course Renal Biopsy (morning course)	Hands - on course US of AV Fistula (full day course)	Hands - on course Vascular Access Catheter placement (morning course)	Hands - on course PoCUS (full day course)			
12.15 13.00	Break											
13.00 16.30		CME 4 - Haemo and Peritoneal Dialysis	CME 8 - Basics of Genetics for Nephrologists	CME 6 - Acute Kidney Injury	CME 7 - Electrolytes and urolithiasis	Hands - on course Renal Biopsy (afternoon course - replication)		Hands - on course Vascular Access Catheter placement (afternoon course - replication)				
16.30 17.00	Break											
17.00 18.15	Welcome Ceremony & Welcome Plenary											
16.00 20.00	Exhibition											
18.30 20.00	Welcome Reception											

Renal physiology, urolithiasis, hereditary disorders & rare diseases in children, pregnancy	Glomerular diseases & general clinical nephrology	CKD – pathophysiology, epidemiology, prevention, progression, ageing	End Stage Kidney Disease, haemodialysis, kidney function replacement therapies	Kidney transplantation (clinical and immunology)	Hypertension, diabetes, cardiovascular risk in CKD	AKI, intensive care nephrology	Institutional	Plenary Lecture	Hands-On Course	Moderated Orals and Focussed Orals	Industry Sponsored Symposium	Creative Labs
---	---	--	--	--	--	--------------------------------	---------------	-----------------	-----------------	------------------------------------	------------------------------	---------------

	GOLD (PLENARY)	AUDITORIUM	SPACE 1 & 2	SPACE 3 & 4	BROWN 3	BROWN 1 & 2	AMBER 1 & 2	AMBER 3 & 4	AMBER 5	AMBER 6	FOCUSED ORALS HALL	AMBER 7
08.30 09.45	S 2.1 - What's new in the management of primary glomerular diseases?	S 3.1 - Ensuring optimal treatments to delay progression CKD in routine clinical practice	S 6.2 - Updates on Current Management of CKD – what's knew and where are we going	S 0.2 - ERA Registry	FC 23 - The Renal Riddle	FC 13 - Dilemma's in dialysis	FC 19 - Rejection Rejected	S 0.7 - Learn by Practice on Anemia in CKD		Moderated Orals 1.1	Focussed Orals 1.1	
09.45 10.00	Break											
10.00 11.00			ISS 1.1	ISS 1.2	ISS 1.3	ISS 1.4	ISS 1.5	ISS 1.6	ISS 1.7	S 0.9 - The ERA project on Brain and Kidney Interaction (CONNECT): present and future		
11.00 11.45	Plenary Lecture 1											
11.45 12.00	Break											
12.00 13.15	S 0.1 - Late Breaking Clinical Trials	S 5.1 - Deceased donor selection: new approaches and solutions	S 4.1 - Classic and Non-classic Players in Bone and Vascular Disorders in CKD	S 1.2 - Advances in Renal Physiology 1: Novel 'intracrine' regulators of tubular transport	S 1.1 - Endocrine and bone related stones	FC 6 - The Art of Staring at Urine: Studies in IgA Nephropathy	FC 17 - Calcium Conundrums and Vitamin D Dilemmas	S 7.2 - AKI: outcomes	Creative Labs I: The check list of setting up a Clinical Trials	Moderated Orals 1.2	Focussed Orals 1.2	
13.15 13.30	Break											
13.30 14.30			ISS 1.8	ISS 1.9	ISS 1.10	ISS 1.11	ISS 1.12	ISS 1.13	ISS 1.14			
14.30 14.45	Break											
14.45 16.00	S 4.7 - Hot topics in hemodialysis	S 3.2 CKD - prevalence and projections - preparing for the storm?	S 5.4 - Long-term complications in renal transplantation	S 2.3 - Lupus nephritis; still many unknowns in the treatment	S 6.1 - Hypertension in CKD: progress in pathophysiology and therapeutic innovation	FC 9 - Observational Studies: Where Correlation and Causation Get Confused	FC 25 - You have to recognize it before you see it	S 6.4 - Hypertension: the role of 24h ABPM and remote monitoring	Creative Labs II: Ethics in Publication (research ethics and Good clinical practice)	Moderated Orals 1.3	Focussed Orals 1.3	
16.00 17.00	Break											
17.00 18.15	S 3.4 - Progress in the pathogenesis of nutritional disorders in CKD	S 4.8 - Electronic files in nephrology: from data collection to advanced data management	S 5.3 - Expanding the donor pool: a new and big challenge	S 2.4 - Novel treatment strategies for renoprotection	FC 21 - Mind the Kidneys: the relationship between CKD and cognition	FC 2 - Small Patients, Big Data	FC 15 - Age and Access	S 7.3 - Immunosuppressed CKD patient in the ICU		Moderated Orals 1.4	Focussed Orals 1.4	
18.30 19.30							ISS 1.15	ISS 1.16				
19.30 17.30	Exhibition											

	GOLD (PLENARY)	AUDITORIUM	SPACE 1 & 2	SPACE 3 & 4	BROWN 3	BROWN 1 & 2	AMBER 1 & 2	AMBER 3 & 4	AMBER 5	AMBER 6	FOCUSSED ORALS HALL	AMBER 7	
08.30 09.45	S 3.3 - CKD progression: between the old and the new	S 4.2 - Clinical issues in peritoneal dialysis I	S 0.4 - 2023 pearls of NDT and CKJ	S 5.5 - Are there new approaches to prevent and treat Ab-mediated rejection?	FC 10 - An SGLT-2 inhibitor a day keeps the doctor away	FC - 22 Identifying the Sweet Spot in Diabetic Kidney disease	FC 26 - Is CKD part of the long COVID syndrome?	S 0.8 - Learn by Practice on Hyperkalemia in CKD	Creative Labs III: How to ruin your presentation	Moderated Orals 2.1	Focussed Orals 2.1		
09.45 10.00	General Assembly												
10.00 11.00			ISS 2.1	ISS 2.2	ISS 2.3	ISS 2.4	ISS 2.5	ISS 2.6	ISS 2.7				
11.00 11.45	Plenary Lecture 2												
11.45 12.00	Break												
12.00 13.15	S 2.2 - C3 glomerulopathy	S 4.5 - Volume control remains an unmet clinical need in CKD and hemodialysis patients	S 1.3 - Advances in Renal Physiology 2: Newer homeostatic mechanisms controlling kidney function	S 6.5 - Diabetic kidney Disease update: go beyond borders	S 7.4 - Contemporary AKI management	FC 11 - Mechanisms of CKD progression and complications: Unmasking the Mystery	FC 18 - Pre-emptive transplantation and which donors to choose	FC 3 - Something rare, something special	S 0.12 - eGFR measurements in clinical practice	Moderated Orals 2.2	Focussed Orals 2.2		
12.30												CKD diagnosis and care in the primary care setting (ERAC Symposium)	
13.15 13.30	Break												
13.30 14.30			ISS 2.8	ISS 2.9	ISS 2.10	ISS 2.11	ISS 2.12	ISS 2.13	ISS 2.14				
14.30 14.45	Break												
14.45 16.00	S 4.4 - Innovation in dialysis and clinical applicatio	S 3.5 - Unmet needs in advanced CKD (II): improving major symptoms and QoL	S 5.6 - Can we predict graft outcomes?	S 1.5 - Polycystic Kidney disease: a multifaceted disease	S 7.1 - Dialysis in AKI: Still an endless story or have issues been clarified?	FC 16 - The Peritoneal Perspective	FC 4 - Navigating the IgA nephropathy pathway	FC 20 - Transplant Tales	S 0.13 - Armed Conflicts, Kidney Patients and Nephrologists	Moderated Orals 2.3	Focussed Orals 2.3		
16.00 17.00		S 0.11 - Late Breaking Clinical Trials	Break								S 0.10 Education in Nephrology: where are we going? (N-PATH)		
17.00 18.15	S 0.3 - ASN Kidney Week 2022 Highlights	S 4.6 - Hypertension in dialysis patients: how to measure it and how to treat in 2023?	S 1.4 - Pregnancy, complications and implications on treatment	S 6.3 - Heart Disease in CKD	S 5.7 - Cardio-vascular complications in renal transplantation: still a neglected field?	FC 8 - The Renal Revolution: tackling renal disease on a global scale	FC 14 - Dialysis Insights and Innovations	FC 7 - The ANCA Vasculitis Variety Session	Creative Labs IV: Balancing parenthood and career	Moderated Orals 2.4	Focussed Orals 2.4		
9.30 17.30	Exhibition												

	GOLD (PLENARY)	AUDITORIUM	SPACE 1 & 2	SPACE 3 & 4	BROWN 3	BROWN 1 & 2	AMBER 1 & 2	AMBER 3 & 4	AMBER 5	AMBER 6	FOCUSSED ORALS HALL	AMBER 7
08.30 09.45	S 0.6 - Diabetes in CKD: the KDIGO Guideline Update	S 3.6 - Getting the patients voice heard	S 4.3 - Clinical issues in peritoneal dialysis II	S 5.2 - Recipient evaluation	FC 5 - Dr. House, could it be lupus?	FC 24 - AKI Alchemy	FC 1 - The Good, the Bad, and the Cystic	FC 12 - Bloody Stones!				
09.45 10.00	Break											
10.00 10.45	Plenary Lecture 3 Young Awardees											
10.45 11.00	Break											
11.00 12.15	S 0.5 - Nephrology Pearls											
	Exhibition closed
